

Zavanti Feasibility

Project Analysis for Property Development

Zavanti Feasibility is a powerful and unique modelling and analytical software solution that facilitates confident business decision-making for property development projects allowing for the analysis and selection of the projects that will represent the best return on investment (ROI). Budgets created are then seamlessly transferred to Zavanti ERP for ongoing financial management of your project. Project details are also integrated into Zavanti CRM for development management, sales and marketing.

Zavanti Feasibility enables you to:
