

Zavanti for Building and Construction

Sales, Operational and Finance Solutions

Success in commercial construction projects, whether they be a residential project, office complex, mixed-use building, roadworks or gas pipeline, is based on specialised planning and scheduling dependent on the unique business requirements. Flexible software that provides real-time committed cost tracking and contract management is essential to projects such as these.

Zavanti solutions are flexible and configurable, match your business processes with our workflows or redesign to match best practices. Utilise functions which flow from the sales and client management, through initial client cost estimating and quoting through to full project control, including purchasing, job costing, task management, invoicing, payroll and financials.

System Overview

- Integrated estimating and contract management
- Job cost management and forecasting
- Customer management and marketing campaigns
- Dashboards and reports to gain instant knowledge
- Multi company and unlimited projects
- Integrated financials.
- Track project budget and real-time, committed costs
- Task and contractor management - integrated task scheduling
- Approvals management - permissions based system to ensure accountability
- Purchase order and variation approval workflows
- Inbuilt retentions calculations for suppliers and client invoicing
- Resource allocation and time reporting
- Subcontractor management and tax reporting
- Full tax reporting
- Outlook integration
- Cash flow analysis
- Cash and accrual based reporting
- Full financials for accounting and tax
