

# Zavanti for Property Development

## Real time life cycle solutions

Zavanti provides the only solution available on the market today that addresses all the unique requirements of Property Developers. This is no idle boast. Take a look around. Zavanti Property Developer follows a developer's project lifecycle from feasibility, through acquisition and construction to sales and ongoing management.

Zavanti feasibility provides an intuitive tool for full project analysis. This migrates through Zavanti ERP for full financials. By leveraging the power of the Microsoft Dynamics 365, Zavanti CRM for Property delivers an elegant and powerful solution that enables property developers to maximise the return on their sales and marketing efforts. Allowing developers to manage all aspects of the sales process, from the initial registration of interest, through to sales contracts and settlement. The solution handles all necessary property and contact information, has in built workflows to manage your construction process from acquisitions to completion certificates and defects.
